

Appendix B

MARQUEE™ INSTALLATION INFORMATION

This appendix describes the relationship between lens types, screen size and throw distance as they apply to the MARQUEE™. Please contact your reseller or VDC Display Systems for additional information. Additionally, included with this manual is the VDC Projector Installation Program located on the accompany CD.

B.1 8" Series MARQUEE™ Installation Reference Table

Table B-1. 8" Series Lens vs. Screen Range, Throw Distance and Formula

The Horizontal Throw Distance (HTD) is measured from the screen surface to the front of the projector at the standard 10° mechanical offset.

Lens	Screen Width Range			Throw Distance Range				Horizontal Throw Distance (HTD) Formulas				
	Minimum			Maximum		Minimum		Maximum		In	mm	
	in	mm		in	mm	in	mm	in	mm
